

### DPS 1 MILE PPM ISSUE

DTOD released a software update to their system requiring a new mandatory Data element. This new mandatory data element does not allow DPS to talk with DTOD causing DPS to calculate every PPM entered as 1 mile.

The Services are advised 'DO NOT CLOSE OUT PPM SHIPMENTS' until this issue has been resolved.

JPMO is aware and working to correct this problem. The estimated fix time is approximately 3 to 4 weeks.

This is a coordinated message between SDDC Personal Property Directorate and USTC Joint Program Management Office-HHGS.
